Note: Show a scaled drawing indicating sign dimensions and locations on property, meeting district sign regulations. The required drawing must reference any utilities, such as water, sewer, electric and gas, and any applicable easements. An approved application to construct does NOT grant authority to construct upon city/state rights-of-way, easements, or property owned by the city. Electrical permitting shall be obtained separately. Signs shall comply with all city building codes and ordinances. An application is not acceptable unless all required information is furnished (see attachment, page two (2)). City accepts no liability for insufficiently furnished information. Check below and fill out the information requested. Multiple signs shall be labeled for identification.

(City Treasurer)

(Sign Administrator)

A full page of blank graph paper with a uniform grid of small squares. The grid consists of 20 columns and 20 rows, creating a total of 400 small square units. The lines are thin and black, set against a white background. There are no margins, text, or other markings on the page.

In the space provided above represent your lot. Locate each structure(s) on your lot including the proposed ground and/or building mounted sign structure(s). Show distances from all front, side and rear property lines and give distances between sign and structure(s). All utilities and any applicable easements shall be referenced. If you have a site plan of the sign to attach, it is not necessary to fill out this portion of the application.
